Chief of Police Carl Dickey,
Dallas City Police Dept.

Dear:

I am writing to you about a matter which concerns you and your career and reputation. I would appreciate it if you would find time to acknowledge this letter in some form.

You probably already know of this as I have talked to two attorneys, the Chief Under Secy and to Sheriff Bill Dickey about it.

I have been here in the jail for the past year and a half. I am under sentence to the state prison for seventy-five years. I am here on an appeal and I also have a murder case pending.

I was arrested on August 10, 1965 by Detectives from robbery & homicide Div. There are five robbery cases and one murder. I have convictions

on five robbery cases. I was transferred to the county on August 20, 1965. I received many convictions on 11-8-65; 12-2-65; 4-1-66-58.

I am married and we have one child. I taught school. We were married Sept. 18, 1964. She is still here and our child was born Aug. 25, 1965 after I was arrested.

on March 1, 1966 I made a short visit with Johnson in Burg, 57th & 8th. He claimed he had old cases for sometime alone with my wife. This took place in the interview room in the Burg & Light dept. The purpose of this time was to have sexual relationship with my wife, which we did.

on April 9, 1966, I went back to the Burg & Light dept. with Detectives Johnson & Borges for another visit with my wife.

on July 14, 1966 I went back again, with Johnson & Borges. This was on a Friday evening and my sister-in-law came to the city with myself. She waited for my wife in the Hall. We did have sexual

relationship and we saw my wife, and after, as he was staying with my wife at the time. They also saw me in the car being brought back to the city said Lt. Farnan informed the vice-p.
personally.

On November 19, 1966, I made a statement with detective Sharp in the auto H.P.S. div. about same thing. He and detective Bryson took me to the city, and while I was there Detective is several of my people on the phone and called my wife to come up there. This time also two people brought my wife to see me. They can and are willing to state that I had relationships with my wife as one of them is a P.M. She was asked to see my wife before & after and to witness her on the way down & back from seeing me, on purpose, I was seen in the car

in the hall on the way back to the county jail. This to me is preposterous.

As a result of our visit July 14, 1966 my wife is pregnant and see today is due the first part of this April. I am the father of this child & we have more than enough to prove it in any court in the United States. We have spent almost eight months setting this up. I don't have the stuff but my people do. I sent most of it home with my wife Nov. 19. She gave it to my grandfather because he lives out of Dallas.

This stuff consists of a full statement from me (seven pages of it) on names, date, & place, a note from Jack Ruby and also the detectives from both departments made the mistake of leaving me alone with those records of unsolved cases. Because of this I have some 20 records from each dept. It would be hard to explain how I came by them if I wasn't there, all of this plus other statements are in the hands of my people in

Denton county. My wife gave them the stuff because my grandfather took it. He is an attorney up there. There are nine different people who know about this and I feel sure that the stuff is safe.

My people & my wife's people want to file a law suit against you & the city of Dallas. The attorney says that you are guilty of defam-
ation of my wife's charter as well as to the baby. Loss of work and full support of the child because it is clearly a ward of the city of Dallas. I have told them to wait on that until I had a chance to talk to the persons concerned. I don't think that I need to say anything about what the newspapers would do with that information.

All of this can be handled quickly if you see fit. If not I will just let my people handle it. I would like to talk to you about it or some

one who can speak for you.

I have been threatened once about a little
trip but my wife talked to Judge Hughes
and she said that there would be no such
trips.

I will not leave this jail with anyone
for any reason except by force. So I would
appreciate it if you would send someone
down here to talk. I also would like to
add that I can't afford to travel. If you
don't see fit to talk about it then my
wife's attorney will let the public and
the court decide who is in the right &
who is wrong.

I await your decision,

Respectfully,

Joe L. Nelson

Dear Mr. Dobnick:

Mr. J. E. Curry, former Chief of Police of the City of Dallas, is no longer with this department having retired March 11, 1966.

The events and testimony surrounding the assassination of President Kennedy and the slaying of Lee Harvey Oswald were published in the Warren Commission Report. I would suggest that you obtain a copy of this report which sets forth all the facts on these two events.

Very truly yours,

Chas. Batchelor
Chief of Police

My letter of November 26, 1966 has not been answered.

Your oath of office makes it mandatory that legitimate questions by concerned citizens be answered.

Further, at the very least, common courtesy makes it obligatory that you answer.

I shall await your answers.

Att.: Chief Charles Batchelor

Dear Chief Batchelor:

Do you and Burrill A. Peterson, Assistant to the Director of the Secret Service, really believe I am as stupid as your letters imply? Both of you refer me to the Warren Report for all the facts. I HAVE READ AND STUDIED THE WARREN COMMISSION REPORT! BOTH OF YOU KNOW THIS! WHY DO YOU THINK I ASKED THE QUESTIONS??!

I have 2 statements to make. Both statements are so beautifully and so FACTUALLY applicable to the Dallas police, the Secret Service, the president's assistants, the Supreme Court, the FBI, the Justice Department, and the State Department. The actions of the aforementioned groups, singly and collectively, are the PRIME reason for the lack of respect for the U.S. by almost every last country on the globe. What a hellish but true indictment of high level federal government so-called integrity.

The second statement. I have now found out that a concerned and conscientious U.S. citizen means less than the pimple on a gnat's posterior extremity!

Do not bother answering.

Yours truly,
Otto X. Dobnick
